

MathWorks Community Grant Program: Eligibility Guidelines and Application

The MathWorks awards a number of grants every quarter. Funding decisions are based on available resources and the degree to which proposals meet the MathWorks Community Grants Program criteria and priorities. While we appreciate the diverse interest in our Community Grant Program, we receive many more proposals than we are able to support each year.

Nonprofit organizations that meet the MathWorks corporate criteria for funding can complete an application (see below). Please review the guidelines before submitting your application for a corporate grant.

The MathWorks Community Grant Program does not support the following groups and activities:
