

System Requirements - Release 2007a

View special PolySpace product system requirements

Solaris

Operating System	Processors	Disk Space	RAM
64-bit MathWorks Products			
Solaris 10*	SPARC	500 MB (MATLAB only)	512 MB
Solaris 9*	ultraSPARC		(1024 MB recommended)
Solaris 8*			

* Running MATLAB R2007a on Solaris 8, 9, or 10 requires that the OS have the current recommended patches. Please contact Sun directly for information about which patches to install.

Graphics

- 24-bit graphics display for Sun Solaris

Compilers (for MEX Files)

- View an up-to-date list of *supported compiler* versions from third-party vendors.

License Management

- Some license types require a license server running FLEXnet v11.11.1.2, which is provided by the MathWorks installer. A license server that is serving multiple releases of MATLAB must use the version of FLEXnet shipped with the latest release of MATLAB being served.
- TCP/IP is required on all platforms when using a license server.

Support for Products on Operating Systems No Longer Supported

If you are enrolled in *Software Maintenance Service*, MathWorks will respond to technical questions and provide workarounds when possible for a period of two years from the date when MathWorks ended support for an operating system. See the *platform road map* for more information.
