* Running MATLAB R2008a on Solaris 10 requires that the OS have the current recommended patches. For information on which patches to install please refer to solutions 1-3UPLL6 and 1-431HK0.

**Graphics**

- 24-bit graphics display for Sun Solaris™️

**Compilers (for MEX Files)**

- View an up-to-date list of supported compiler versions from third-party vendors.

**License Management**

- Some license types require a license server running FLEXnet 11.4, which is provided by the MathWorks installer.
- TCP/IP is required on all platforms when using a license server.

**Support for Products on Operating Systems No Longer Supported**

If you are enrolled in Software Maintenance Service, MathWorks will respond to technical questions and provide workarounds when possible for a period of two years from the date when MathWorks ended support for an operating system. See the platform road map for more information.
